## EXPERIENCE & PROJECTS

---

### JS Developer, FREELANCE

Sep 2022 — Present

Completed JS course at RS School:

HTML5 | CSS3 | JS | React

- Successfully finished an intensive JavaScript course at RS School, gaining comprehensive knowledge and practical experience in JavaScript programming. The curriculum covered key concepts such as data types, control flow, functions, and advanced topics like asynchronous programming and DOM manipulation.

House marketplace:

React | Firebase | React-Toastify

- A **React-based** web application leveraging **Firebase** for database management. This platform specializes in real estate transactions, providing users with a straightforward interface for property rental and sales.
- Key functionalities include user registration and the ability to create personalized property listings, enhancing the overall user experience.

Service registration:

React | Typescript | Tesseract.JS

- The application uses the **Tesseract.JS** library, analyzes incoming images from users and converts the information into text for further registration on the site.
- The client side of the application is made in **React** with additional routing.

### Product Owner, shop.lenovo.by

Aug 2020 — Present

*Tools: Microsoft clarity, Trello, Google analytics, Google ads, SendPulse, Chrome Extensions*

- Collaborated closely with cross-functional teams, including developers, designers, marketing and business stakeholders, to facilitate seamless communication and task delivery.
- Efficiently managed and prioritized the product backlog, ensuring that development efforts were aligned with business goals and user needs.
- Conducted comprehensive market research to stay informed about industry trends and customer preferences, enabling the development of customer-centric solutions.

### Regional Representative, Lenovo

May 2015 — 2020

- Conducted in-depth consultations with clients to gather essential information, ensuring a tailored and personalized approach to meeting their needs.
- Demonstrated exceptional leadership skills by mentoring and guiding a high-performing brand ambassador team, surpassing set targets and achieving outstanding outcomes.
